## GENERAL STATEMENT

This special bulletin is issued simply to supplement the General Catalog of 1916-17, to which reference is made for general information regarding the University. A General Catalog for 1917-18 will not be printed this year.

Special attention is called to the changes in the admission requirements as they are given on page 12 of this bulletin. Hereafter only two units will be permitted as conditions in admission to college standing, thus requiring thirteen units for regular standing as a freshman.

Note also the changes in the requirements for graduation as given on page 15 of the bulletin.

War conditions have largely determined the arrangements for the year, and they must in large part again determine plans for the coming year. Statements in regard to rates for board and room are tentative only and are subject to change during the year if necessity arises. Every effort will be made to maintain the same rates as last year and, at least, to keep them at the lowest possible standard consistent with adequate provision for health and comfort.

Special arrangements will be made for the young women students by which home facilities will be provided by the University. A large house will probably be rented near the campus and a home for all young women of the college and the preparatory department who come from away will be maintained under the direct supervision of the college authorities, with a house mother in constant charge as chaperon and director. Parents may be assured that their daughters will receive the best of care in their home arrangements at the University next year.

### THE COLLEGE YEAR.

The college year begins on the second Wednesday in September and closes on the first Wednesday in June each year. The next college year begins Wednesday, September 11, 1918, and closes on Wednesday, June 4, 1919.

The date of closing may again be changed to meet the exigencies of war conditions, but we confidently expect to maintain the regular schedule.

#### WAR WORK FOR THE WOMEN STUDENTS.

We expect to continue the special Red Cross courses and to develop other courses, such as in Nursing and in Food Conservation, in the Home Economics Department.

Extension courses for the benefit of the ladies of the community will be planned if possible, and every effort will be made to make the work of the Home Economics as effective as possible.

#### THE SERVICE LIST AND HONOR ROLL.

The Service List and Honor Roll is steadily increasing in its numbers as our young men answer the call to the colors, and we take great pride in the fact that Cumberland is doing her part in winning the war.

A very imperfect list of graduates and former students who are in the active service of the Government has been compiled and published in a recent bulletin of the University, and will gladly be sent to anyone on application to the office.

The University authorities are desirous of obtaining as complete a list as possible of all alumni and former students who are in some branch of national service, and to that end request that information be sent to the office giving the name, home address, branch of service and temporary address of any alumni or former student who is not already on the list.

#### STUDENT ACTIVITIES.

In spite of unfavorable conditions for campus activities, the spirit of fellowship and enthusiasm has been pronounced during the past year, and we anticipate an even greater possibility for congenial associations among the students and faculty during the ensuing year.

The same strong emphasis as usual was placed upon the Christian influences of the college, and the activities of the Y. M. C. A. and the Y. W. C. A. were maintained on a high plane. The study classes during the second semester were well sustained and proved of great benefit to those who shared the privileges of the instruction.

## LITERARY SOCIETIES.

The students of the college maintained the Amasagasseean Literary Society as usual, but the interest lagged decidedly during the year. A new impetus was gained near the close of the year and there is excellent promise of revived interest next year. A special room will be provided for the meetings of this society and more attention will be paid to the programs in the endeavor to arouse new enthusiasm.

The preparatory students did excellent work in a society of their own, and a society will be maintained another year with more comprehensive plans for genuine literary work.

The students of the Law Department maintain the Philomathean Literary Society, and even with reduced numbers continued the work on a high plane.

## ATHLETICS AND MILITARY TRAINING.

We confidently expect to resume regular activities in athletics in all the major sports, and we hope also to continue the military drill under competent instruction.

The War Department of the Federal Government has suggested a plan by which colleges having at least one hundred men enrolled as students may form military companies and be assisted by Regular Army officers. Such military units will be enrolled as reserves in the Regular Army and be subject to call by the President for active service, but no call will probably be made for any man under twenty-one years of age. Such enlistments will be entirely voluntary on the part of any student, and only men eighteen years of age or over will be regularly enlisted, but boys under eighteen will be permitted to join the companies for drill without requirement of enlistment or without being subject to call for active service.

The War Department presents this plan as a means to make possible the continuance of our young men in college and their preparation at the same time for active service in the Army. It is a preparedness measure to satisfy the desire of all young men for loyal service and for college work without a suggestion of being slackers.

## THE CUMBERLAND WEEKLY.

The college paper as an important element in student life went through the year with excellent success, and was a credit

to the student body. The faculty heartily commend the faithful managers, editors and reporters who worked under difficult conditions and accomplished a good work.

The year was closed without a deficit in the treasury of the weekly.

### THE ORATORICAL ASSOCIATION.

Although a firm belief exists in the minds of the faculty and among the student body in the value of the oratorical association, nothing was done during the past year to maintain its existence. Interclass debates were planned and partially carried out, and it is hoped that both these activities may be resumed another year.

### ADMISSION REQUIREMENTS.

The general methods of admission to the College are outlined in the General Catalog on page 20.

The credit allowed for preparatory work which may be offered for admission is expressed according to the Carnegie Foundation Unit System. The unit is defined: "A course of five periods weekly throughout the academic year of the preparatory school."

### ADMISSION TO REGULAR COURSES.

For unconditional admission to the Freshman class in either of the regular courses of study the candidate must present fifteen units. No student is admitted to full standing with more than two conditions. All entrance conditions must be removed by the end of the Sophomore year. At least one condition must be removed during the Freshman year.

Certain units in each course are required; the remainder of the fifteen units may be selected from the list of acceptable units below:

REQUIRED.			
Classical Course:		Scientific Course:	
Mathematics .....	2½	Mathematics .....	2½
English .....	3	English .....	3
Foreign Language .....	4	Science or Foreign Lan-	
		guage .....	2
Total required .....	9½	Total required .....	7½

## ACCEPTABLE UNITS, MINIMUM AND MAXIMUM.

English . . . . .	3 or 4	French . . . . .	1 or 2
Latin . . . . .	3 or 4	German . . . . .	1 or 2
Greek . . . . .	1, 2 or 3	Science . . . . .	1, 2 or 3½
Bookkeeping . . . . .	1	Commercial Arithmetic..	½

## ADMISSION TO ADVANCED STANDING.

Candidates for admission to advanced standing must satisfy the requirements for such standing in the desired class in Cumberland University.

## ADMISSION TO SPECIAL COURSES.

While each register student is urged to become a candidate for a regular degree, to certain students the privilege will be accorded of taking certain courses without the expectation of receiving a degree.

Such special students must offer the full fifteen units required for admission to college classes, or not less than thirteen units with conditions to be removed later.

Students applying for admission to the courses in Music or Home Economics who are unable to satisfy the admission requirements for college rank will be classified as preparatory students in these departments.

## EXPENSES

## FEES.

The tuition is at the rate of \$1.25 per semester credit hour; for the usual registration the tuition will be, therefore, \$20 per semester. All college students are required to pay the continuing fee of \$10 per semester.

All semester fees are payable strictly in advance. No one will be recognized as a student until his fees have been paid or definite business arrangements for deferred payments made in the University office.

## BOARDING.

For both the young men and the young women the cost of board will range from \$21 to \$25 per calendar month; this includes table board, room rent, fuel and lights.

The room rent at the College Dormitory is payable strictly in advance for a semester at the following rates:

For each person, two in a room, per semester..	\$20
For a single room, per semester .....	25

The rates for table board must be uncertain in the present condition of the markets, but every effort will be made to maintain as low a rate as is consistent with a reasonable supply of wholesome, well-cooked and properly-served food.

At the beginning of the college year the rate of board will be

Per calendar month .....	\$16
--------------------------	------

Laboratory courses require a special fee, depending upon the character of the course. The schedule of fees is as follows:

#### Home Economics:

Courses 1a and 1b, per semester.....	\$5
2a and 2b, per semester .....	3
3a, per semester .....	5
3b, per semester .....	7
4a and 4b, per semester .....	1
5a and 5b per semester .....	2.50

#### Chemistry:

For all courses, per semester.....	5
------------------------------------	---

#### Physics:

Per semester .....	2.50
--------------------	------

#### Biology:

For all courses, per semester .....	2.50
-------------------------------------	------

#### Applied Mathematics:

Surveying, per semester .....	2.50
Mechanical Drawing, per semester .....	1

### SUMMARY OF EXPENSES FOR THE YEAR.

Tuition for the entire year .....	\$ 40
Contingent fees, Library, Athletic, etc.....	20
Room rent, two in a room .....	40
Room rent, single room .....	50
Table board, Dormitory, at \$16 per month...	136
Board and room with private families.....	225 or more

The necessary expenses for college students will approximate therefore, for the entire year (this is exclusive of traveling expenses, clothes, books, etc.), \$236 to \$246.

### REFUNDS.

The room rent is a semester fee and is not refunded under any circumstances.

A student who withdraws for a sufficient reason during the first fourth of a semester will receive as a refund three-fourths of his payments. For withdrawal during the second or third fourth of a semester the refund will be in proportion, one-half and one-fourth of the total payments. During the last fourth of the semester NO REFUND will be made.

### REQUIREMENTS FOR GRADUATION.

The general explanation of the group system used in the choice of classes by students in electing their work is given in full in the General Catalog.

The "Credit Hour" as given in the General Catalog has, however, been changed to a semester basis and means, therefore, "one recitation per week, of one hour each, for one semester."

The following subjects are elected only by Juniors and Seniors:

Logic.	Astronomy.
Ethics.	Physics.
Psychology.	Education.
Sociology.	Philosophy.
Economics.	

A student is a freshman, in classification, until he gains 12 college credits toward a degree; a sophomore until he gains 28; and a junior until he gains 46.

The courses of study are carefully outlined in the General Catalog.

By recent action of the faculty of the University a vocational course leading to the degree, "Bachelor of Science in Home

Economics," has been created and a regular diploma authorized on the completion of the prescribed courses.

The course of study is as follows:

69 hours shall be *required*, as in the A.B. and B.S. degree courses.

In addition candidates for this degree shall choose as one of their "Groups," Chemistry, and in addition to this shall complete not less than 24 hours in Home Economics.

128 hours are required as the total degree work, as in the other regular degree courses.

#### PREPARATORY DEPARTMENT.

The statements regarding the courses and work of the Preparatory Department are given in the General Catalog and have not been changed.

By continuing with three regular full-time teachers, who are college graduates, the Preparatory Department is enabled to qualify as an accredited school in the list issued by the State Department of Education and its work is accepted for entrance into any first-class college in the South and into a large majority of the Northern colleges also.

Cumberland University desires to maintain its Preparatory Department with a high standard and, while the control is independent in general administration, the facilities of the college are placed freely at the disposal of the secondary classes.
